CLAIMS

10

. 15

- 1. A communication device comprising a keymat, a cover, and a substrate comprising a plurality of key switches, wherein , said keymat comprises a plurality of lips located at edges of said keymat, and said cover comprises a plurality of indentations configured to receive said plurality of lips, wherein said indentations are located at edges of a recess for removably mounting said keymat.
- 2. Communication device according to claim 1, wherein said keymat comprises one or more guiding pieces, and said cover comprises one or more corresponding guiding recesses.
- 3. Communication device according to claim 2, wherein said guiding pieces are arranged in direct connection to one or more of said plurality of lips.
- Communication device according to claim 1, wherein said keymat comprises one or more guiding
 recesses, and said cover comprises one or more corresponding guide pieces.
 - 5. Communication device according to claim 4, wherein said guiding pieces comprises one or more ribs extending to be received by said guide pieces.
- 25 6. A cover for a communication device comprising a recess for receiving a keymat comprising a plurality of lips, compriseing a plurality of indentations located at the edges of said recess for receiving said plurality of lips.
- 7. Cover according to claim 6, further comprising one or more guiding recesses.
 - 8. Cover according to claim 7, wherein said one or more guiding recesses are arranged in direct connection to one or more of said plurality of indentations.
- 9. Cover according to claim 6, further comprising one or more guiding pieces.

- 10. Cover according to claim 9, wherein said guiding pieces are one or more ribs on a surface of said cover facing a place where a keymat is to be mounted.
- 11. A keymat for removable mounting on a cover of a communication device, comprising lips located at edges of said keymat configured to insert into indentations of said cover.
- 12. Keymat according to claim 11, further comprising one or more guiding pieces.
- 13. Keymat according to claim 12, wherein said guiding pieces are arranged in direct connection to one or more of said plurality of lips.
 - 14. Keymat according to claim 11, further comprising one or more guiding recesses.
- 15. Keymat according to claim 14, wherein said one or more guiding recesses are an incision in a surface that is to be in contact with said cover when mounted on said cover.
- 16. Keymat according to claim 11, being moulded in 20 one piece.
